Thursday 26th March 2009 9.30-4.40
St George's Hotel, The Parade, Llandudno

For those whose responsibility it is to manage Wales' heritage at a local level there are often complex issues and significant difficulties to be overcome in bringing redundant historic buildings back into use. However, a proactive approach to historic buildings at risk can deliver important economic, environmental and social benefits. Those attending the conference will see how a successful project can be delivered and how statutory powers can be more effectively used to maximise the potential of historic assets.

- **Alun Ffred Jones, AM** Minister for Heritage (keynote address)
